Dear Sh. Upadhyay,

The Consortium of Educational Communication (CEC) and the Information and Library Network Centre (ILNC) are organizing a national seminar on "Open Access to Textual and Multimedia Contents: Bridging the Digital Divide" during 29-30 January 2009 at the India Habitat Centre, New Delhi.

The basic aim of this seminar is to review the current trends in ICT for storage, management and dissemination of multimedia and textual contents. The Internet and Web technology offer virtual environment that facilitate collaboration, hitherto, not possible in evaluate the activities, services and functionalities and bridge the gap between traditional system and latest technologies. A brochure giving the details of national seminar is enclosed for your reference and perusal. Please visit our web sites of our institutions / seminar for further information.

The national seminar is targeted to community involved in dissemination of multimedia and textual contents which includes media professionals, Library and information professionals and ICT professionals. The Seminar would be specifically beneficial for the students of Library & Information Science given the fact that Open Access is new form of learn new techniques of e-publishing in Open Access environment. The Open Access and e-Publishing is also covered in the syllabi of LIS students at graduate as well as post-graduate level.

Considering the facts mentioned above, I would request you to kindly depute the students of Library & Information Science in your state to participate in the National Seminar. Thanking you.

Yours sincerely,

(Jagdish Arora)
