Dear Delegates,

I have an immense pleasure and privilege to inform you that the Department of Economics, Government SMS Post Graduate College Shivpuri is going to organize a two days 'National Seminar' to be held on 6th and 7th Feb 2010. This Seminar is sponsored by the University Grants Commission, Central Regional Office Bhopal, Madhya Pradesh. The focal theme of the seminar is '**Foreign Direct Investment (FDI) and Structural Changes in Employment (SCE)**'. You are cordially invited to participate and for making a presentation in this auspicious occasion.

Friends! We are passing through an era of globalization. India is a leading country in this respect. Here, globalization has a long history. In 1991, the Government of India (GOI) launched the 'New Economic Policy'. This opened a new era for 'Privatization, Liberalization, and Globalization'. The main motive behind this policy was to invite foreign investors to generate capital and augmentation of employment. Although, we achieved economic growth upto a certain extent, yet it could not pave a way for decentralization. As a result of this, only the areas which were already developed such as the metropolitan cities got advantages.

The main objectives to organize this seminar are:

- To invite the stalwarts of the field to critically discuss this burning and relevant topic.
- To discuss the current status and future prospects of FDI.
- To summarize major conclusions and suggestions and submit it to the competent authorities.
