The Commissioner,

Higher Education,

Government of Madhya Pradesh

Bhopal

Subject: Wipro Job Fest,

Dear Sir,

Wipro BPO is one of largest Business Process Outsourcing Companies. Having 8 centers across India. As part of our hiring program we have been doing Job fest across all the universities of various states of India.

From past two years we have been hired around 3500 students from universities of Mumbai/Pune/Gujarat/Sikkim/Punjab/Chennai and Delhi. The objective is to provide opportunity to educated youth directly from the grounds of universities.

We hire graduates from all streams B.com /B.sc/B.A /BBA etc.

The process is very simple we organize the Job Fest where we invite the pass out students of the particular universities and during the two days the selection process is completed and the individual is selected and is given a letter to join the organization in one of the centre across our location.

As we standard that all the Madhya Pradesh universities come under the higher education and it could be of great help to us if your department would help us in coordinating the same with all the various universities.

We propose to have the job fest I the following universities of the following date.

17th and 18th of September Bhopal
25th and 26th of September Indore
29th and 30th of September Jabalpur.

The university will need to provide us with a hall for addressing the students and rooms to conduct the interview rest all will be taken care by the Wipro BPO team.

As in other states the university also releases the press release and advertisement in the local news paper about the job fest it would be great if this can be done so to cover maximum number of students. The event is of two days and in these two days we carry out the following process of selection

- Day 1 & 2 : Corporate presentation for 45 minutes
- Group discussion – Depending on the number of people 15 minutes per batch of 20.
- Personal interview – 10 minutes per candidate
- SEA – Voice test round 20 minutes per candidate.
- Selected candidate is given offer letter with joining date.

In two days we cover the maximum crowd and roll out maximum offers.

The program is design to give benefit to pass-out students of last 5 years and hence creates job opportunity for all.

We have tried to contact the university in your state but due to their busy schedule we have not managed to have any job fest.

I would highly appreciate your kind support in this program as this is will benefit the youth.

We hope that you help us in this process and give us the required permission to do these job fest.

Thank You.

Your's Truly

Sandesh Kumar,

Head –Talent Acquisition
